

## Did you know?

Chattanooga Business Machines has more than the **PRODUCTS** others want to imitate. We offer unparalleled **SERVICE** and business **SOLUTIONS**.

Since our local company was founded in **1983**, our team members' **LONG TERM TENURE** reflects our dedication to solutions that strengthens the **FRIENDSHIPS** we've made over the years

Along with our award-winning product line we have also built **TRUST** in our experience and in our **DEDICATION** because our customers are also our friends.

After all, life and business are meant to be enjoyed!

**CHATTANOOGA  
BUSINESS MACHINES**  
MANAGING TECHNOLOGY • INSTALLING TRUST

# Light Production systems

Bring color production in-house with Sharp's high performance document systems. **Edge-to-edge printing** enables operators to output high quality, full bleed booklets in-line, helping to reduce outsourcing costs as well as production time. An external Fiery® is available for color critical environments that need precision job management.

**SHARP**®

# Multifunction devices

Multifunction devices combine the capabilities of a printer, scanner, copier and fax machine in one convenient piece of equipment. When combined with the appropriate software they can help you achieve your business goals through improved workflow efficiencies that help you cut costs and minimize waste.

**SHARP**®  
**Panasonic**

*Sharps earned coveted 2019 Copier MFP Line of the Year Award from Analysts at Keypoint Intelligence (Buyers Laboratory)*

# Printers

Highly regarded by the industry and highly rated by numerous testing organizations, KYOCERA's complete portfolio of reliable, high-value, Eco-Friendly network laser printers, deliver high-resolution output with crisp black and white text and graphics for any size workgroup.

 **KYOCERA**

# Scanners

We have partnered with Panasonic to offer document scanning solutions that fuel non-stop efficiency. Whether you're scanning business cards one at a time, or imaging records nonstop, Panasonic has the right high-performance scanning solution for your needs. Panasonic scanners are overbuilt to perform when others fail and easy to integrate with your workflow.

**Panasonic**

*Winner of the prestigious 2019 Scanner Line of the Year Award from Analysts at Keypoint Intelligence (Buyers Laboratory)*

# Professional displays and digital signage

Communicate, collaborate and share ideas like never before with professional displays ranging in **sizes up to 80" in width**. These interactive display systems are designed with true user-friendliness in mind. Use them as a data display for presentations or as a remote collaboration tool to conduct webinars and video conferences. Ideal for corporate board rooms and training centers.

**SHARP**

## Display mounts/stands

We carry the industry's only electrical height adjustable mounting solution for displays and interactive whiteboards up to 100" and 330 lbs. Mounts are available for wall, mobile and tilting/mobile. These mounts accommodate displays with VESA pattern.

**CONEN**® **DRAGONFLY**

## Professional in-house binding systems

Take your presentations from ordinary to extraordinary with Unibind. Custom binding solutions help brand your corporate identity materials. Great for binding proposals, contracts, books, manuals, etc.

**Unibind**®

# Document management solutions

**Cloud Portal Office** is an award-winning document storage and sharing service that provides a convenient way to seamlessly connect to your business content and easily share and collaborate with team members.

**SharpDesk®** is an easy to use desktop-based, personal document management application. Users can browse, edit, search, compose, process, and forward both scanned and native electronic documents. (Standard on many Sharp MFPs)

**Intact SMART** is a feature-rich document management software system able to keep millions of electronic and scanned documents safe and secure merely a fingertip away.

## Software solutions

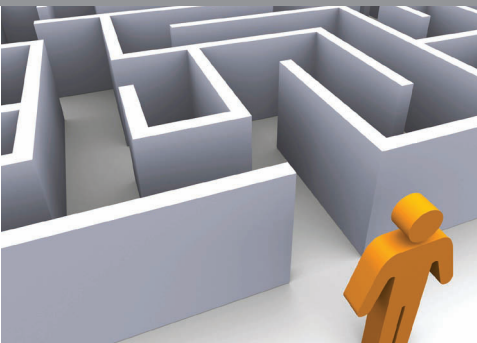

**Two of the many software solutions we provide involve security:**

**Secure Print Release** ensures sensitive documents don't start printing until the user is there to collect. A swipe card or device login for validation must be used. If you use a **proximity badge** to gain entry into your building, a card reader can be added to your multifunction machine so employees can access and print also.

Save money and get a layer of security by print jobs not being released until an employee flashes their badge or logs in with an access code.

## Managed print services

Let us help you...

- Assess your current printing solution
- Find ways to lower operating costs & improve productivity
- Provide you with the best equipment for your situation

How you benefit
