

TRADITIONAL IT vs COMPLETE CLOUD

The chart below is a snapshot of the significant benefits of CompleteCloud - benefits you can't replicate when a traditional, break-fix support model is used. The benefits are across the board, from improvements in productivity and security to proactive monitoring and maintenance that reduces downtime and risk of failure.

WORKING TRADITIONALLY	VS	WORKING WITH COMPLETE CLOUD
<p>WORKING DAY TO DAY</p> <ul style="list-style-type: none"> • Tied to a desk, tied to a server • Rely on email for communication • Calls are made on desk phones • Meetings in person • Must be in the office to be productive • Not very flexible 		<p>WORKING DAY TO DAY</p> <ul style="list-style-type: none"> • Work From anywhere with internet • Live collaboration on documents • Remote video meetings and conferences with screen sharing • Powerful mobile productivity apps • Very flexible
<p>SECURITY</p> <ul style="list-style-type: none"> • Rely on file server to secure data • Needs complex firewall security • File permissions are difficult to assign • Hard to maintain strong security 		<p>SECURITY</p> <ul style="list-style-type: none"> • Highly secure, managed by certified cybersecurity experts • Identity based security (person, device, location) • Security is dynamic, best practice and very secure
<p>COST</p> <ul style="list-style-type: none"> • Can be unpredictable • Larger capital expenses • Pay for your potential future needs 		<p>COST</p> <ul style="list-style-type: none"> • Per person per month • Operational expenses • Pay for what you use, no wasted resources
